

Bio-All's **AMBITION**

BIO-ALL's ambition is to accelerate knowledge and competences to boost innovation and entrepreneurship in the BIOHEALTH sector, fostering co-creation and collaborative dynamics between and within relevant actors of the ecosystem (Higher Education Institutions' staff and students, Businesses, Incubators/Accelerators, Investors and other relevant stakeholders) and upscaling ground-breaking entrepreneurial education assets, methodologies and schemes.

Our methodological approach involves you!

The project aims to engage key-players since the beginning, based on a co-creation strategy that includes the organization of dedicated events at a local level:

- ❖ "Unconferences": participant-driven open space meetings to unveil community perspectives, needs and interests;
- ❖ "Sparkathons": innovative, impact-driven design thinking competitions/seminars that challenge teams of key-players on BIO Entrepreneurship / Innovation-fostering programmes / studies, attracting potential end-users for the piloting phase of the project's resources;
- ❖ "BIOHEALTH Gear Box Labs": co-working events to promote long-term collaborations between end-users through hands-on activities.

Innovative educational resources and business support opportunities for the **BIOHEALTH** sector

Bio-All results:

- ❖ A roadmap with evolution scenarios, related strategies and actions for the sector development → **BIOHEALTH Gear Box Blueprint**: "Driving Innovation and Entrepreneurship through the BIOHEALTH Sector".
- ❖ A ground-breaking, participatory and challenging approach for effective collaborations between Academia, Businesses and Incubators/Accelerators, materialized in a set of events → **BIOHEALTH Gear Box Engagement Events**.
- ❖ **An International Joint Post-Graduation course** on "Advanced Skills for Innovation and Entrepreneurship in the BIOHEALTH Sector", composed by a modular programme, a project/business plan unit, visits to BIOHEALTH established businesses and project-based activities.
- ❖ **An International Joint Accelerator Programme**: "BIOHEALTH Gear Box Business Accelerator", in which seed-companies will have access to technical and practical business support activities, to boost their innovation and growth capacities.
- ❖ A collaborative online Hub to foster open innovation dynamics and co-creation processes → Virtual **Network for Entrepreneurs and Innovators in the BIOHEALTH Sector**.

MEET THE TEAM AND GET INVOLVED

The Bio-All project is based on a collaborative and multidisciplinary approach where academia, business and incubator/accelerator players join efforts to develop innovative educational resources and support schemes to seed-companies in the BIOHEALTH sector. **You must be a part of Bio-All!**
